

SDEA Member Training: STUDENT DISCIPLINE

This training will focus on the teacher's right to suspend a student, including "best practices" in exercising your right and addressing violations of your right. The training will also cover how union members can use the School Site Discipline to make administration accountable on issues of student discipline. This Member Training is open to all SDEA members and is especially recommended for Association Representatives. It's a good idea for your school to send at least one delegate!

THURSDAY, DECEMBER 10TH
