**Proposal to**  
**San Diego Unified School District (SDUSD)**

**February 20, 2015**

**Article 13: Class Size**

**Section 13.1: DEFINITIONS**

~~13.1.1 “Consultation” as used in the Article is defined as follows: Discussion which provide each party with a meaningful opportunity to materially impact, influence, and shape decisions before they are made. The consultation process is for the purpose of discussion over educationally related subjects, as distinguished from the negotiations process, which addresses legally defined working conditions.~~

~~13.1.1.1 If consultation does not result in consensus as to how to proceed, and/or either party asserts that consultation as defined above has not really occurred, Association and District leadership shall meet to resolve the issues. Each party shall select two representatives for this purpose. If the parties cannot resolve the issues, and upon either party’s request, the following dispute resolution process shall apply:~~

- ~~a. The Association and the District shall each select an individual to serve on a resolution panel; these two individuals shall select a third panel member.~~
- ~~b. All panel members shall possess sufficient knowledge of educational policy, theory, and practices to enable them to make an informed decision on the issues presented.~~
- ~~c. Each party shall make a presentation to the panel, together with relevant documentation, if desired.~~
- ~~d. The panel will issue a recommended resolution in writing. If the parties cannot resolve the issues based on this recommendation, the matter shall be submitted to the Board of Education for final decision.~~
- ~~e. This process shall be implemented as expeditiously as possible in order that necessary decisions are made in accordance with legal time lines and educational necessity.~~

~~13.1.1.2 In any event, the District may take actions of an interim nature prior to completion of the consultation process if necessary to prevent a loss of funding, or to prevent an increased expenditure of district revenues.~~

**Section 13.1: CLASS SIZE REDUCTION GOALS & LCFF GRADE SPAN ADJUSTMENT COMPLIANCE**

The Board of Education and the Association agree that reduction of class size is a primary continuing goal of the District. ~~within the constraints of: (1) financing available, (2) the need to meet all essential goals of school district operations, and (3) the relative priority of class size, salaries, hours, and other conditions of employment within the scope of representation.~~ The Parties share a joint commitment to the goal of lowering class size throughout the District **at every level/subject area** and agree to work together whenever possible to identify and obtain sources of funding for such purposes.

**Section 13.2: ELEMENTARY K-6**

13.2.1. Staffing of regular 4-6 classes at each elementary school will be determined by the following allocation formula:

$$\begin{array}{rcl} \frac{\text{TK - Grade 3 enrollments}}{29.70} & = & \text{Number of primary grade teachers} \\ & & \text{(Rounded to nearest tenth)} \\ \\ \frac{\text{Grade 4 - 6 enrollments}}{32.13} & = & \text{Number of upper grade teachers} \\ & & \text{(Rounded to nearest tenth)} \end{array}$$

The figure generated by the formula is the number of teachers allocated to a school. When the number is two-tenths (.2) or more above the whole number, another teacher may be allocated.

- 13.2.2 13.2.1.1 To the extent individual school site class size averages for grades TK-3 in 2014-15 would not otherwise meet the requirement of the LCFF, this section constitutes an “alternative annual class enrollment for each school site” within the meaning of the education Code section 42238.02(d)(3)(B), (C), and (D).
- 13.2.2. For 2014-15, Individual kindergarten classes shall not exceed an average of thirty-two (32) pupils for the first six (6) school months of the school year, based on the official monthly enrollment reports.
- 13.2.3. For 2014-15, Individual Grades 1 and 2 classes shall not exceed an average of twenty-five and one-half (25.5) pupils for the first six (6) school months of the school year, based on the official monthly enrollment reports.
- 13.2.4. For 2014-15, Individual Grade 3 classes shall not exceed an average of thirty-one (31) pupils for the first six (6) school months of the school year, based on the official monthly enrollment reports.
- 13.2.5. For 2014-15, Grades K-6 classes shall not exceed thirty-six (36) pupils for more than thirty (30) calendar days.
- 13.2.6 The parties agree that during the 2015-16 school year, as a condition of receiving the additional funding grant for the K-3 Grade Span Adjustment (GSA) under the Local Control Funding Formula (LCFF), the District and SDEA must negotiate an annual class size enrollment for each site. Therefore the parties agree that effective July 1, 2015 individual school site averages for TK-3 shall not exceed 24 to 1 with a maximum class size of 27.
- 13.2.7 Effective, July 1, 2015, grades 4-6 site class size averages shall be thirty-two (32) pupils per classroom and no individual class size shall exceed 35 pupils for more than twenty (20) workdays.
