ARTICLE 13. CLASS SIZE

Section 13.1: DEFINITIONS

13.1.1 “Consultation” as used in the Article is defined as follows: Discussion which provide each party with a meaningful opportunity to materially impact, influence, and shape decisions before they are made. The consultation process is for the purpose of discussion over educationally related subjects, as distinguished from the negotiations process, which addresses legally defined working conditions.

13.1.1.1.If consultation does not result in consensus as to how to proceed, and/or either party asserts that consultation as defined above has not really occurred, Association and District leadership shall meet to resolve the issues. Each party shall select two representatives for this purpose. If the parties cannot resolve the issues, and upon either party’s request, the following dispute resolution process shall apply:

- a. The Association and the District shall each select an individual to serve on a resolution panel; these two individuals shall select a third panel member.
- b. All panel members shall possess sufficient knowledge of educational policy, theory, and practices to enable them to make an informed decision on the issues presented.
- c. Each party shall make a presentation to the panel, together with relevant documentation, if desired.
- d. The panel will issue a recommended resolution in writing. If the parties cannot resolve the issues based on this recommendation, the matter shall be submitted to the Board of Education for final decision.
- e. This process shall be implemented as expeditiously as possible in order that necessary decisions are made in accordance with legal time lines and educational necessity.

13.1.1.2.In any event, the District may take actions of an interim nature prior to completion of the consultation process if necessary to prevent a loss of funding, or to prevent an increased expenditure of district revenues.

Section 13.2: CLASS SIZE REDUCTION GOALS

13.2.1 The Board of Education and the Association agree that reduction of class size is a primary continuing goal of the District within the constraints of: (1) financing available, (2) the need to meet all essential goals of school district operations, and (3) the relative priority of class size, salaries, hours, and other conditions of employment within the scope of representation. The Parties share a joint commitment to the goal of lowering class size throughout the District, at every level, and agree to work together whenever possible to identify and obtain sources of funding for such purposes.

Section 13.3: ELEMENTARY

13.3.1. Staffing of regular classes at each elementary school will be determined by the following formula:

$$\frac{\text{K - Grade 3 enrollments}}{29.70} = \text{Number of primary grade teachers (rounded to nearest tenth)}$$

$$\frac{\text{Grade 4 - 6 enrollments}}{32.13} = \text{Number of upper grade teachers (rounded to nearest tenth)}$$

The sum of these two figures will be the number of teachers allocated to a school. When the sum is two-tenths (.2) or more above the whole number, another teacher may be allocated.

- 13.3.2. Individual kindergarten classes shall not exceed an average of thirty-two (32) pupils for the first six (6) school months of the school year, based on the official monthly enrollment reports.
- 13.3.3. Individual Grades 1 and 2 classes shall not exceed an average of twenty-five and one-half (25.5) pupils for the first six (6) school months of the school year, based on the official monthly enrollment reports.
- 13.3.4. Individual Grade 3 classes shall not exceed an average of thirty-one (31) pupils for the first six (6) school months of the school year, based on the official monthly enrollment reports.
- 13.3.5. Grades K-6 classes shall not exceed thirty-six (36) pupils for more than thirty (30) calendar days.

Section 13.5: SECONDARY

13.5.1. In addition to certificated personnel assigned to secondary schools for counseling, supervision of students and student activities, special education, and atypical or exceptional circumstances, the basic allocation of certificated personnel units (CPU) for classroom instruction in comprehensive secondary schools shall be not less than:

$\frac{\text{Middle School or Junior High Enrollment} + 2 \text{ CPU}}{28.73}$	$\frac{\text{Senior High Enrollment} + 2 \text{ CPU}}{29.13}$
--	---

13.5.2. Individual teacher's academic classes shall be no more than thirty-six (36) pupils each. This maximum individual academic class size may be exceeded in the following circumstances:

- 13.5.2.1 When necessary to ensure that one or more students are not precluded from taking a course needed for graduation, at the appropriate academic level (e.g. Honors, AP, IB).
- 13.5.2.2 When the teacher consents to exceed the maximum.

- 13.5.3. When safety or supervision is a problem, or class facilities necessitate, as determined by the District, the classes normally will average no more than thirty-two (32) pupils each. Classes in music, business education, and physical education may exceed the average size established for other classes.
- 13.5.4. Secondary schools having counselor(s) assigned to pupil supervision one (1) hour or more per day on a regular basis shall not count such time as part of the counseling time under the District's formula for allocating counselors.
- 13.5.5. Following the second school month of the traditional school year, the Contract Administration Committee shall be provided with a monthly report of all academic classes exceeding forty (40) students. The purpose of receiving this data shall be to plan for future negotiations and, if possible, to develop recommended solutions to outstanding class size problems.
- 13.5.6. Secondary physical education classes (excluding athletic periods) shall average no more than fifty (50) pupils over a four (4) month period. Following the second school month of the traditional students' school year, the Contract
